### **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions, and listings, of claims in the application:

#### **Listing of Claims**

1. (Currently Amended) A method for conducting at least one convention, by website program instructions on a central website facilitating the exchange between at least one meeting planner client and at least one attendee client comprising the steps of:

a. receiving, from the at least one meeting planner client, and electronically storing at a central website, convention content information for a plurality of conventions;

b. receiving at the central website from the at least one attendee client a selection for convention content information of one convention from the plurality of conventions; and

c. releasing from the central website to the at least one attendee client the selected convention content information.

2. (Original) The method according to claim 1 wherein the at least one meeting planner client is a plurality of meeting planner clients.

3. (Original) The method according to claim 1 wherein the at least one attendee client is a plurality of attendee clients.

**Response Under 37 CFR 1.116**

**Expedited Procedure**

**Examining Group 2100**

Application No. 09/869,513

Paper Dated: November 29, 2005

In Reply to USPTO Correspondence of September 22, 2005

Attorney Docket No. 1762-010921

4. (Original) The method according to claim 1 wherein the convention content information is cyber-based.

5. (Original) The method according to claim 1 wherein the convention content information is one of cyber-based or venue-based.

6. (Original) The method according to claim 1 further comprising the step of storing in a relational database cross-referencing fields from the meeting planner client to allow for the holding of an unlimited number of conventions.

7. (Original) The method according to claim 1 further comprising, prior to step b), the steps of receiving at the central website a search request from the attendee client for certain convention content information and releasing to the attendee client information satisfying the search request.

8. (Original) The method according to claim 1 further comprising, prior to step c), the steps of receiving at the central website from the attendee client information necessary to register for the convention.

9. (Original) The method according to claim 1 further comprising the step of using attendee client information to alert attendee clients of future conventions that may be of interest to them.

**Response Under 37 CFR 1.116**

**Expedited Procedure**

Paper Dated: November 29, 2005

In Reply to USPTO Correspondence of September 22, 2005

Attorney Docket No. 1762-010921

10. (Original) The method according to claim 1 further comprising the step of receiving at the central website, from at least one exhibitor client, convention search, selection and registration information for at least one convention.

11. (Original) The method according to claim 10 wherein the at least one exhibitor client is a plurality of exhibitor clients.

12. (Original) The method according to claim 10 further comprising the step of storing cross-referencing fields from the convention content information in a relational database to allow an unlimited number of exhibitor clients.

13. (Original) The method according to claim 1 further comprising the step of receiving at the central website from the meeting planner client session content information.

14. (Original) The method according to claim 1 further comprising the steps of receiving at the central website a request for certain client session content information from the attendee client for and releasing to the attendee client information satisfying the search request.

15. (Original) The method according to claim 14 wherein the session content information is cyber-based.

In Reply to USPTO Correspondence of September 22, 2005

Attorney Docket No. 1762-010921

16. (Original) The method according to claim 14 wherein the session content information is one of cyber-based and venue-based.

17. (Original) The method according to claim 14 further comprising the step of providing attendee client participation in the session.

18. (Original) The method according to claim 1 further comprising the step of receiving at the central website a search request from the attendee client for session information and releasing to the attendee client such information.

19. (Original) The method according to claim 1 further comprising the step of receiving at the central website from the attendee client information necessary to register for the session.

20. (Original) The method according to claim 1 further comprising the step of receiving at the central website from an exhibitor client exhibit content information including exhibit booth design and content.

21. (Original) The method according to claim 20 wherein the exhibit content information is cyber-based.

22. (Original) The method according to claim 20 wherein the exhibit content information is one of cyber-based and venue-based.
